

MARTIN DE MARTINI

CHIEF INFORMATION OFFICER, BOARD MEMBER

Martin co-founded Y Soft with Vaclav Muchna. Martin oversees the company's global IT and system integration teams, project managers and Y Soft's internal and external standardization processes while continuing to evangelize new technology.

A team leader and technologist, Martin serves as Chief Information Officer. As a Y Soft co-founder, Martin began coding the first version of YSoft SafeQ in 2000 and oversaw its development into an enterprise print management solution. Previously, Martin was a Senior VP of Transition Management where he was responsible for internal and external processes to ensure the satisfaction of Y Soft's largest customers worldwide. He had previously held the role of CTO and has simultaneously acted as Head of R&D and product VP for periods of time. A Y Softer by heart, blood and soul, he is a dreamer, inventor and entrepreneur. He is the problem solver, the one who sees the big picture and figures out the path to get there.
