

SECURE PRINT SERVICES FOR HEALTHCARE

YSOFT SAFEQ CONNECTOR FOR EPIC® SECURELY MANAGES YOUR PRINT SERVICES ENVIRONMENT

Printing patient medical records and other documents typically required using certified print devices to meet HIPAA and other regulatory and compliance requirements.

Now, with the YSoft SafeQ Connector integration with Epic, healthcare providers can achieve patient data security and privacy on any print device.

Managing print drivers, print queues or maintaining Windows® servers and being limited to expensive, certified print devices are a thing of the past.

YSOFT SAFEQ INTEGRATION WITH EPIC

YSoft SafeQ is an enterprise-grade print management and document capture solution. Our integration with Epic, along with YSoft SafeQ's standard security features, simplifies your print environment, improves system uptime and aids in meeting HIPAA and other regulatory compliances. Specifically, the YSoft SafeQ Connector integration with Epic offers:

- Managed, secure user access to print and scan devices
- Comprehensive reports that aid in meeting HIPAA and other regulatory requirements for end-to-end security of all patient-related and other documents
- Pull printing to enable staff to print at any networked printer; ability to scan, copy or fax at any networked printer
- Ability to hold jobs at the printer to satisfy retention policies
- Print jobs can be set to auto-delete after a designated time
- Print job status visibility to the user within Epic

POWERFUL SAFEQ PRINT SERVICES SOFTWARE OFFERS MUCH MORE

INCREASED USER EFFICIENCY

- Integrated print and scan workflows with an intuitive and easy-to-use interface
- Staff can pull print jobs to any networked printer including remote access
- Secure electronic delivery of patient documents to predefined locations
- Delivers mobile and wireless print capabilities

COMPLETE CONTROL AND SYSTEM MANAGEMENT

- Easily deploys on existing infrastructure
- Configurable for high availability, failover and redundancy
- Supports both centralized and highly distributed services
- Easily managed through an administrative dashboard

PRINT SYSTEM COST REDUCTIONS

- Employs patented building-block architecture to reduce need for print servers
- Uses rule-based printing to enforce policies like 2-sided print or B&W only
- Ability to track costs by project or department codes
- Offers pay-for-print options to distribute costs

PRINT INFRASTRUCTURE ECOSYSTEM

- Fully compatible with Y Soft hardware (e.g. ID card readers)
- Fully supported and backed by a choice of SLA levels
- Software is integrated with world's biggest printer manufacturers
